BACKGROUND

Under its Fiscal Policy (Resolution 24-05), TIMMA’s financial records are to be audited annually by an independent, certified public accounting firm. The audit for the fiscal year (FY) ended June 30, 2024, was conducted in accordance with generally accepted auditing standards, the standards applicable to financial audits contained in the Government Auditing Standards, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). The Audit Report contains formal opinions, or disclaimers thereof, issued by an independent, certified public accounting firm as a result of an external audit performed on the agency. An unmodified opinion (also known as a clean

opinion/unqualified opinion) is the best type of report an agency may receive from an external audit and represents that the agency complied with direct and material regulatory requirements or that the agency's financial condition, position, and operations in all material respects were fairly presented.

DISCUSSION

The Audit Report includes an Independent Auditor's Report; a management discussion and analysis of the TIMMA financial performance during that fiscal year; the financial statements; and the required supplemental information.

We are pleased to note that Eide Bailly issued all unmodified opinions and had no findings or recommendations for improvements. We recognized all significant transactions in the financial statements in the proper period and received no adjustments to any estimates made in the financial statements. For the annual fiscal audit, Eide Bailly has issued an opinion stating that the financial statements present fairly, in all material respects, the financial position of TIMMA. The full audit report is attached. A separate report containing other required communications to the Board is attached.

FINANCIAL IMPACT

Expenditures did not exceed the amounts approved in the final FY 2023/24 budget. Budgeted expenditures in the amount of \$266,260 were not expended in FY 2023/24 and were included in the FY 2023/24 mid-year amendment.

Independent Auditor's Report

To the Board of Commissioners of the
Treasure Island Mobility Management Agency
San Francisco, California

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities and the general fund of the Treasure Island Mobility Management Agency (Agency), a component unit of the San Francisco County Transportation Authority (Transportation Authority), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the general fund of the Treasure Island Mobility Management Agency, a component unit of the San Francisco County Transportation Authority, as of June 30, 2024, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Agency and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Agency's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Agency's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Eide Bailly LLP

Menlo Park, California
February 7, 2025

As management of the Treasure Island Mobility Management Agency (Agency), we offer readers of the financial statements this narrative overview and analysis of the financial activities of the Agency for the fiscal year (FY) ended June 30, 2024.

Financial Highlights

- Net Position - The assets exceeded its liabilities by \$1.35 million (net position) at FY ended June 30, 2024. All of which is considered unrestricted net position and may be used to meet the Agency's ongoing obligations.
- Total Assets - Total assets increased by \$532 thousand, which is mainly due to an increase in program receivables. (grant funds) for the Autonomous Vehicle (AV) Shuttle pilot project (called "The Loop").
- Total Liabilities - Total liabilities decreased by \$78 thousand, which is mainly due to a decrease in payable liabilities to San Francisco County Transportation Authority.
- Operating Grants and Contributions Revenues - Total operating grants and contributions increased by \$1.7 million. This is mainly due to the collection of prior year reimbursements that were not collected within the revenue recognition period, from the Treasure Island Development Authority.
- Transportation Improvement Expenses - Total transportation improvement expenses increased by \$620 thousand in FY2023/24 as compared to the prior year, mainly due to an increase in capital projects cost related to The Loop.
- Total revenues and expenditures were less than the final budgetary estimates by \$266 thousand as the toll and affordability program was paused and other subprojects of the Agency program proceeded more slowly than anticipated. Toll system design and integration work will proceed once the toll and affordability program is adopted.
- Fund Balance - The Agency's sole governmental fund, the general fund, reported no fund balances, which is consistent with the prior year.

Overview of the Financial Statements

The discussion and analysis provided here are intended to serve as an introduction to the Agency's basic financial statements. The Agency's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) the notes to financial statements. This report also includes required supplementary information intended to furnish additional detail to support the basic financial statements themselves.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the Agency's finances, in a manner similar to a private-sector business.

The statement of net position presents financial information on all of the Agency's assets, liabilities with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Agency is improving or deteriorating.

The statement of activities presents information showing how the Agency's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported for some items that will only result in cash flows in future fiscal periods.

The governmental activities of the Agency includes transportation improvement as the only activity.

The government-wide financial statements can be found on pages 11-12 of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Agency, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in assessing a government's near-term financing requirements. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Agency maintains one governmental fund which is the general fund and adopts an annual appropriated budget for it. A budgetary comparison has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 13-14 of this report.

Notes to the Financial Statements

The notes provide additional information that is necessary to acquire a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 15-17 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information concerning the Agency's general fund budget.

Required supplementary information can be found on pages 18-19 of this report.

Government-Wide Overall Financial Analysis

As noted earlier, net position over time may serve as a useful indicator of a government's financial position. The Agency's statement of net position shows assets exceeded its liabilities by \$1.4 million at year ended June 30, 2024.

	For the Year Ended			
	June 30, 2024	June 30, 2023	\$ Change	% Change
ASSETS				
Program receivables	\$ 954,419	\$ 130,389	\$ 824,030	632.0%
Receivable from the City and County of San Francisco	1,125,469	1,417,652	(292,183)	-20.6%
Total Assets	2,079,888	1,548,041	531,847	34.4%
LIABILITIES				
Accounts payable	104,132	76,433	27,699	36.2%
Payable to the City and County of San Francisco	3,934	2,125	1,809	N/A
Payable to San Francisco County Transportation Authority	619,276	727,055	(107,779)	-14.8%
Total Liabilities	727,342	805,613	(78,271)	-9.7%
NET POSITION				
Unrestricted net position	1,352,546	742,428	610,118	82.2%
Total Net Position	\$ 1,352,546	\$ 742,428	\$ 610,118	82.2%

The Agency reported an unrestricted net position of \$1.4 million, an increase of \$610 thousand due to mainly increased program receivables as compared to prior year. Total assets increased by \$532 thousand which consists of program receivables from federal, state, regional and other grant funding and program receivables from the City and County of San Francisco. The decrease in receivable from the City and County of San Francisco is due to a reduction of outstanding reimbursement requests at year end. Total liabilities decreased by \$78 thousand which consists of accounts payable, payable to the City and County of San Francisco, and payable to the Transportation Authority. Payable of \$619 thousand to the Transportation Authority was for costs incurred by the Agency but paid by the Transportation Authority on behalf of the Agency. The Agency will reimburse the Transportation Authority with grant payments received.

Governmental Activities

The Agency's net position for governmental activities increased \$610 thousand for the year ended June 30, 2024, with an ending balance of \$1.4 million.

	For the Year Ended		\$ Change	% Change
	June 30, 2024	June 30, 2023		
Revenues				
Operating grants and contributions	\$ 2,048,763	\$ 324,826	\$ 1,723,937	530.7%
Total revenues	<u>2,048,763</u>	<u>324,826</u>	<u>1,723,937</u>	530.7%
Expenses				
Transportation improvement	1,438,645	818,667	619,978	75.7%
Total expenses	<u>1,438,645</u>	<u>818,667</u>	<u>619,978</u>	75.7%
Change in net position	610,118	(493,841)	1,103,959	-223.5%
Net position, beginning of year	<u>742,428</u>	<u>1,236,269</u>	<u>(493,841)</u>	-39.9%
Net position, end of year	<u>\$ 1,352,546</u>	<u>\$ 742,428</u>	<u>\$ 610,118</u>	82.2%

Financial Analysis

As noted earlier, the Agency uses fund accounting to report its governmental transactions. The focus of the Agency's governmental fund is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Agency's financing requirements. Operating grants and contributions increased by \$1.7 million. This is mainly due to increased federal grant revenues from the Advanced Transportation and Congestion Management Technologies Deployment grant and the Innovative Deployments to Enhance Arterials Shared Automated Vehicles Program grant funding for The Loop, as well as the collection of prior year reimbursements from the Treasure Island Development Authority. In FY 2023/24, we completed preparations for The Loop and commenced operation on Treasure Island in August 2023. The Loop operated passenger service through December 2023 and the project was concluded in January 2024. Transportation improvement expenses increased by \$620 thousand as compared to the prior year mainly due to an increase in capital projects cost related to The Loop.

Budgetary Analysis and Highlights and Economic Factors

The most significant differences between budgeted revenues and expenditures and actual revenues and expenditures were as follows:

	Budgeted Amounts		Actual	Positive (Negative) Variance Final to Actual
	Original	Final		
Revenues and Transfers In				
Program revenues				
Federal	\$ 1,027,034	\$ 883,659	\$ 348,643	\$ (535,016)
State	29,801	45,759	-	(45,759)
Regional and other	608,790	676,258	658,306	(17,952)
Transfers in from other funds	47,255	99,229	431,696	332,467
Total Revenues and Transfers In	1,712,880	1,704,905	1,438,645	(266,260)
Expenditures and Transfers Out				
Administrative operating costs	342,627	686,735	642,175	44,560
Transportation improvement	1,370,253	1,018,170	796,470	221,700
Total Expenditures and Transfers Out	1,712,880	1,704,905	1,438,645	266,260
Change in Fund Balance	-	-	-	-
Fund Balance - Beginning	-	-	-	-
Fund Balance - Ending	\$ -	\$ -	\$ -	\$ -

Total revenues were less than the final budgetary estimates by \$266 thousand. Revenues and expenses are below final budgeted amounts due to the toll and affordability program being paused. Administrative operating costs were less than budgetary estimates by \$45 thousand and transportation improvement costs were \$222 thousand less than budgetary estimates, as expenditures related to the toll and affordability program was paused. Work on toll system design and integration work will proceed once the program is adopted.

Requests for Information

This financial report is designed to provide a general overview of the Agency's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report, or requests for additional financial information, should be addressed to:

Note 1 - Reporting Entity and Background

The Treasure Island Transportation Management Act of 2008 Assembly Bill 981 (Leno 2008) authorizes the creation or designation of a Treasure Island-specific transportation management agency. On April 1, 2014, the City and County of San Francisco Board of Supervisors approved a resolution designating the San Francisco County Transportation Authority (Transportation Authority) as the Treasure Island Mobility Management Agency (Agency) to implement the Treasure Island Transportation Implementation Plan in support of the Treasure Island/Yerba Buena Island Development Project. In September 2014, Governor Brown signed Assembly Bill 141 (Ammiano 2014), establishing the Agency as a legal entity, distinct from the Transportation Authority, to help firewall the Transportation Authority's other functions. The eleven members of the Transportation Authority Board act as the Agency's Board of Commissioners.

Pursuant to Governmental Accounting Standards Board (GASB) standards, the financial statements of the Agency are included in the Transportation Authority's basic financial statements using the blending method. Nonetheless, the Agency is governed by an administrative code separate from that of the Transportation Authority's, and the agency operates as a special-purpose government agency under state law, separate and distinct from the Transportation Authority. The ordinance that created the Agency empowers it to independently issue debt in order to finance transportation projects for the Agency. The Agency's borrowing capacity is separate and distinct from that of the Transportation Authority.

The Treasure Island Transportation Implementation Plan (TITIP), adopted in 2011, calls for a comprehensive, integrated program to manage travel demand on Treasure Island as it develops. This innovative approach to mobility includes a complementary package of strategies and services including required purchase of transit passes by residents, parking fees, and a multimodal congestion pricing program that applies motorist user fees to support enhanced and new bus, ferry, and shuttle transit, as well as bicycle sharing, to reduce the traffic impacts of the project. Assembly Bill 981 (Leno 2008) authorizes San Francisco to implement congestion pricing (tolling) on Treasure Island.

The Agency's goals as set forth in the TITIP include the following:

Promote walking and biking: Bike lanes, pedestrian paths, and bike-sharing stations are to be set up to make walking and biking around the island safe and enjoyable.

Provide high-quality transit: This includes providing more San Francisco Municipal Transportation Agency services, new AC Transit services, ferry services, and on-island shuttles, to ensure that at least 50% of trips to and from the island are made using sustainable methods.

Reduce the need for car-ownership and use: This will be done by implementing a toll to enter and exit the island, unbundling parking from housing, and implementing a car sharing service.

Promote affordability: Subsidize transit passes, provide toll discounts, and provide discounts to services like car and bike share for longtime residents and below market rate housing residents.

Note 2 - Summary of Significant Accounting Policies

Basis of Presentation

Government-wide Financial Statements - The statement of net position and statement of activities display information about the Agency. These statements include the financial activities of the overall government. Eliminations have been made to minimize the double counting of internal activities. Governmental activities are normally supported by taxes, grants, and other revenues.

The statement of activities presents a comparison between direct expenses and program revenues. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include: 1) charges paid by the recipients of goods or services offered by the programs and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented instead as general revenues.

Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured, such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements. The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible, within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the Agency.

Fund Balance/Net Position

The net position reported on the statement of net position is unrestricted, while the Agency reported no fund balance on June 30, 2024. When an expenditure / expense is incurred for purposes for which both restricted and unrestricted net position / unassigned fund balance is available, the Agency considers restricted funds to have been spent first.

Use of Estimates

The preparation of basic financial statements, in conformity with generally accepted accounting principles (GAAP), requires management to make certain estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Note 3 - Related Party Transactions*City and County of San Francisco*

Receivables from the City and the County of San Francisco totaled \$1,125,469 at June 30, 2024. These amounts are due to the Agency for project billings related to the TITIP. Payables to the City and the County of San Francisco are comprised of \$3,934.

San Francisco County Transportation Authority

Payables to the Transportation Authority are comprised of \$619,276. These amounts were for the costs incurred by the Agency but paid by the Transportation Authority on behalf of the Agency.

Note 4 - Commitments

The Agency's outstanding commitments totaled \$663,503 at June 30, 2024. This amount represents outstanding encumbrances on various Agency contracts held with private consulting companies.

Note 1 - Budgets and Budgetary Data

Comparisons with financial results for the current fiscal period for the fund are presented as required supplementary information and include, in addition to actual expenditures, amounts that have been appropriated for projects and programs. Unexpended capital budget appropriations are carried forward to subsequent years. The budget represents a process through which policy decisions are made, implemented, and controlled. Appropriations may be adjusted during the year with the approval of the governing board. Accordingly, the legal level of budgetary control by the Agency is the program (fund) level. Budgets are adopted on a basis consistent with generally accepted accounting principles.

Attachment 2

February 7, 2025

To the Board as Commissioners of the
Treasure Island Mobility Management Agency
San Francisco, California.

We have audited the financial statements of Treasure Island Mobility Management Agency (Agency), a component unit of the San Francisco County Transportation Authority, as of and for the year ended June 30, 2024, and have issued our report thereon dated February 7, 2025. Professional standards require that we advise you of the following matters relating to our audit.

Our Responsibility in Relation to the Financial Statement Audit

As communicated in our July 2, 2024, our responsibility, as described by professional standards, is to form and express an opinion about whether the financial statements that have been prepared by management with your oversight are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America. Our audit of the financial statements does not relieve you or management of your respective responsibilities.

Our responsibility, as prescribed by professional standards, is to plan and perform our audit to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement. An audit of financial statements includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control over financial reporting. Accordingly, as part of our audit, we considered the internal control of the Agency solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are also responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures for the purpose of identifying other matters to communicate to you.

Planned Scope and Timing of the Audit

We conducted our audit consistent with the planned scope and timing we previously communicated to you.

Compliance with All Ethics Requirements Regarding Independence

The engagement team, others in our firm, as appropriate, our firm, and other firms utilized in the engagement, if applicable, have complied with all relevant ethical requirements regarding independence.

Significant Risks Identified

As stated in our auditor's report, professional standards require us to design our audit to provide reasonable assurance that the financial statements are free of material misstatement whether caused by fraud or error. In designing our audit procedures, professional standards require us to evaluate the financial statements and assess the risk that a material misstatement could occur. Areas that are potentially more susceptible to misstatements, and thereby require special audit considerations, are designated as "significant risks." We have identified the following as significant risks:

- Risk of Management Override.
- Due to timing and availability of revenues related to grant reimbursements received the Agency must evaluate revenue recognition of year end receipts accordingly.

Qualitative Aspects of the Entity's Significant Accounting Practices

Significant Accounting Policies

Management has the responsibility to select and use appropriate accounting policies. A summary of the significant accounting policies adopted by the Agency is included in Note 1 to the financial statements. There have been no initial selection of accounting policies and no changes in significant accounting policies or their application during the fiscal year. No matters have come to our attention that would require us, under professional standards, to inform you about (1) the methods used to account for significant unusual transactions and (2) the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.

Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's current judgments. Those judgments are normally based on knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ markedly from management's current judgments. No such sensitive accounting estimates were identified.

Financial Statement Disclosures

Certain financial statement disclosures involve significant judgment and are particularly sensitive because of their significance to financial statement users. There were no financial statement disclosures that we consider to be particularly sensitive or involve significant judgment.

Significant Difficulties Encountered during the Audit

We encountered no significant difficulties in dealing with management relating to the performance of the audit.

Uncorrected and Corrected Misstatements

For purposes of this communication, professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that we believe are trivial, and communicate them to the appropriate level of management. Further, professional standards require us to also communicate the effect of uncorrected misstatements related to prior periods on the relevant classes of transactions, account balances or disclosures, and the financial statements as a whole. Uncorrected misstatements or matters underlying those uncorrected misstatements could potentially cause future-period financial statements to be materially misstated, even though the uncorrected misstatements are immaterial to the financial statements currently under audit. There were no uncorrected or corrected misstatements identified as a result of our audit procedures.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter, which could be significant to the Agency's financial statements or the auditor's report. No such disagreements arose during the course of the audit.

Circumstances that Affect the Form and Content of the Auditor's Report

For purposes of this letter, professional standards require that we communicate any circumstances that affect the form and content of our auditor's report. We did not identify any circumstances that affect the form and content of the auditor's report.

Representations Requested from Management

We have requested certain written representations from management which are included in the management representation letter dated February 7, 2025.

Management's Consultations with Other Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters. Management informed us that, and to our knowledge, there were no consultations with other accountants regarding auditing and accounting matters.

Other Significant Matters, Findings, or Issues

In the normal course of our professional association with the Agency, we generally discuss a variety of matters, including the application of accounting principles and auditing standards, significant events or transactions that occurred during the year, operating and regulatory conditions affecting the entity, and operational plans and strategies that may affect the risks of material misstatement. None of the matters discussed resulted in a condition to our retention as the Agency's auditors.

This report is intended solely for the information and use of the governing board, and management of the Agency and is not intended to be, and should not be, used by anyone other than these specified parties.
