San Francisco Priority Development Areas

TIGS Highlights: Housing Policies

The irrariportation's sourisationity rew would raise frew revenue to expand the transportation system as San Francisco grows. New development brings new residents and workers taking tips on our streets, buses, trains, sidewalks and bikeways. The Transportation Sustainability Fee would raise new revenue to markain and expand the transportation system, allowing the

Just picture the number of cars that Bridge and the Bay Bridge every da more. Combine that together. That's projected to be added to San Franc streets by 2040 if we don't plan she

Our transportation network needs to include more transit vehicles, more streets for people walking. For year underfunded, in part because the c developers to offset the transportabuildings. Voters have recently app fix some of the attructural deficits, bit to accommodate new riders require must start now.

The Transportation Sustainability Fe additional revenue to help fill the Cit funding gap. Developers would pay contributing their fair share.

The Transportation Sustainability Fee is projected to pay for

\$1.2 billion in transportation improvements over 30 years.

age. The revenue is subject to the economy, but updating

The current fee generates about \$24 million a year on aver-
