**Date:** 04.17.2014

**RE:** Citizens Advisory Committee  
 April 23, 2014

**To:** Citizens Advisory Committee

**From:** Cynthia Fong – Deputy Director for Finance and Administration *CF*

**Subject:** **INFORMATION** – Internal Accounting Report and Investment Report for the Nine Months Ending March 31, 2014

## Summary

The Transportation Authority's Fiscal Policy directs staff to give a quarterly report of expenditures including a comparison to the approved budget. The Transportation Authority's Investment Policy directs that a review of portfolio compliance be presented along with the quarterly report. **The Internal Accounting Report for the nine months ending March 31, 2014, is presented as an information item.**

## BACKGROUND

The Transportation Authority's Fiscal Policy (Resolution 14-43) establishes an annual audit requirement, and also directs staff to report to the Finance Committee, on at least a quarterly basis, the Transportation Authority's actual expenditures in comparison to the approved budget. The Transportation Authority's Investment Policy (Resolution 14-43) directs a review of portfolio compliance with the Investment Policy in conjunction with, and in the context of, the quarterly expenditure and budgetary report.

**Internal Accounting Report:** Using the format of the Transportation Authority's annual financial statements for governmental funds, the Internal Accounting Report includes two tables, a Balance Sheet (Table 1) and a Statement of Revenues, Expenditures, and Changes in Fund Balances, with Budget Comparison (Table 2). In Table 2, the last two columns show, respectively, the budget values, and the variance of revenues and expenditures as compared to the approved budget. For the nine months ending March 31, 2014, the numbers in the approved budget column are three-fourths of the total proposed amended annual budget for Fiscal Year (FY) 2013/14. Although the sales tax (Prop K) and vehicle registration fees (Prop AA) accruals are included for the nine-month total, the Internal Accounting Report does not include the Governmental Accounting Standards Board Statement Number 34 adjustments, or the other accruals, that are done at year-end. The Balance Sheet values as of March 31, 2014 are used as the basis for the Investment Policy compliance review.

**Investment Report:** The investment policies and practices of the Transportation Authority are subject to and limited by applicable provisions of state law, and to prudent money management principles. All investable funds are invested in accordance with the Transportation Authority's Investment Policy and applicable provisions of Chapter 4 of Part 1 of Division 2 of Title 5 of the California Government Code (Section 53600 et seq.). Any investment of bond proceeds will be further restricted by the provisions of relevant bond documents.

In managing its investment program, the Transportation Authority observes the "Prudent Investor" standard as stated in Government Code Section 53600.3, applied in the context of managing an overall portfolio. Investments are to be made with care, skill, prudence and diligence, taking into account the

prevailing circumstances, including, but not limited to general economic conditions, the anticipated needs of the Transportation Authority and other relevant factors that a prudent person acting in a fiduciary capacity and familiar with those matters would use in the stewardship of funds of a like character and purpose.

The primary objectives, in priority order, for the Transportation Authority's investment activities are:

- 1) **Safety.** Safety of the principal is the foremost objective of the investment program. Investments of the Transportation Authority will be undertaken in a manner that seeks to ensure preservation of the principal of the funds under its control.
- 2) **Liquidity.** The Transportation Authority's investment portfolio will remain sufficiently liquid to enable the Transportation Authority to meet its reasonably anticipated cash flow requirements.
- 3) **Return on Investment.** The Transportation Authority's investment portfolio will be managed with the objective of attaining a market rate of return throughout budgetary and economic cycles commensurate with the Transportation Authority's investment risk parameters and the cash flow characteristics of the portfolio.

Permitted investment instruments are specifically listed in the Transportation Authority's Investment Policy, and include the San Francisco City and County Treasury Pool, certificates of deposit, and money market funds.

The purpose of this memorandum is to provide the Citizens Advisory Committee with the Internal Accounting Report and the Investment Report for the FY 2013/14 period ending March 31, 2014.

## DISCUSSION

The Balance Sheet, Table 1, presents assets, liabilities, and fund balances as of March 31, 2014. Cash, deposits and investments total to \$106.7 million as of March 31, 2014. Other assets total \$37.7 million and includes \$9.4 million of program receivables mainly related to grant reimbursements for Yerba Buena Island Interchange Improvement Project and Presidio Parkway Project, \$10.5 million in an intergovernmental loan receivable from the Treasure Island Development Transportation Authority for the repayment of preliminary engineering and design costs for the Yerba Buena Island Interchange Improvement Project, and \$13.1 million in sales tax receivable. Liabilities total \$163.1 million as of March 31, 2014 and include outstanding commercial paper repayment obligations of \$150 million.

There is a negative of \$18.7 million in total fund balances, which is largely the result of how multi-year programming commitments are accounted for. Sales tax revenues, grant reimbursements and debt proceeds collected for the remaining months in FY 2013/14 will fully fund this difference. This amount is obtained as follows: \$352,955 is restricted for debt service, \$13.7 million is restricted for capital projects, and \$32.8 million is an unassigned negative fund balance. The unassigned negative fund balance reflects grant-funded capital projects that are scheduled to be implemented over the course of several fiscal years. The commitments are multi-year commitments and are funded with non-current (i.e. future) revenues. Commitments of future revenues are tracked through the grant administration process, and there is no issue with the availability of future revenues to honor them. A negative fund balance is a result of how these commitments are accounted for, and it does not affect the viability of the projects or grants. In addition, the Transportation Authority does not hold or retain title for the projects it has constructed or for the vehicles and system improvements purchased with sales tax funds, which can result in a negative position. This reporting of all legal funding commitments without the corresponding revenue or assets creates or largely contributes to the \$32.8 million unassigned negative fund balance.

For the nine months ending March 31, 2014, revenues were less than budgetary estimates by \$2.9 million for all of the Transportation Authority's programs. Total expenditures were less than the budgetary estimates by \$56.9 million. This amount includes a favorable variance of \$508,282 for personnel expenditures attributed to the adoption of revised salary structure in May 2013 and the amended budget amount does not have immediate impacts because salary increases are only granted on the basis of performance, not for inflation or as blanket cost-of-living increases; \$348,332 for non-personnel expenditures mainly related to the Enterprise Resource Planning system approved in FY 2013/14 budget amendment; and \$67.1 million in capital project costs. Due to costs from project sponsors and consultants that have not yet been received by the Transportation Authority for the second and the third quarter, program revenues and capital project costs are below budget. Consistent with prior year patterns, Transportation Authority staff anticipates a higher level of reimbursement requests and invoices during the fourth quarter. In addition, a variance of \$11.1 million is related to an anticipated repayment of a portion of the outstanding Commercial Paper Program in the amount of \$15,006,000 by June 2014.

As of March 31, 2014, approximately 87% of the Transportation Authority's investable assets were invested in the City and County of San Francisco Treasury Pool. Other investment assets include a money market investment pool held by US Bank per the terms of the Transportation Authority's Commercial Paper indenture. These investments are in compliance with both the California Government Code and the Transportation Authority's Board-adopted Investment Policy, and provide

sufficient liquidity to meet expenditures requirements for the next six months. Attachment 1 is the most recent investment report furnished by the Office of the Treasurer.

The City and County of San Francisco uses the following methodology to determine compliance: Compliance is pre-trade and calculated on both a par and market value basis, using the result with the lowest percentage of the overall portfolio value. Cash balances are included in the City's compliance calculations.

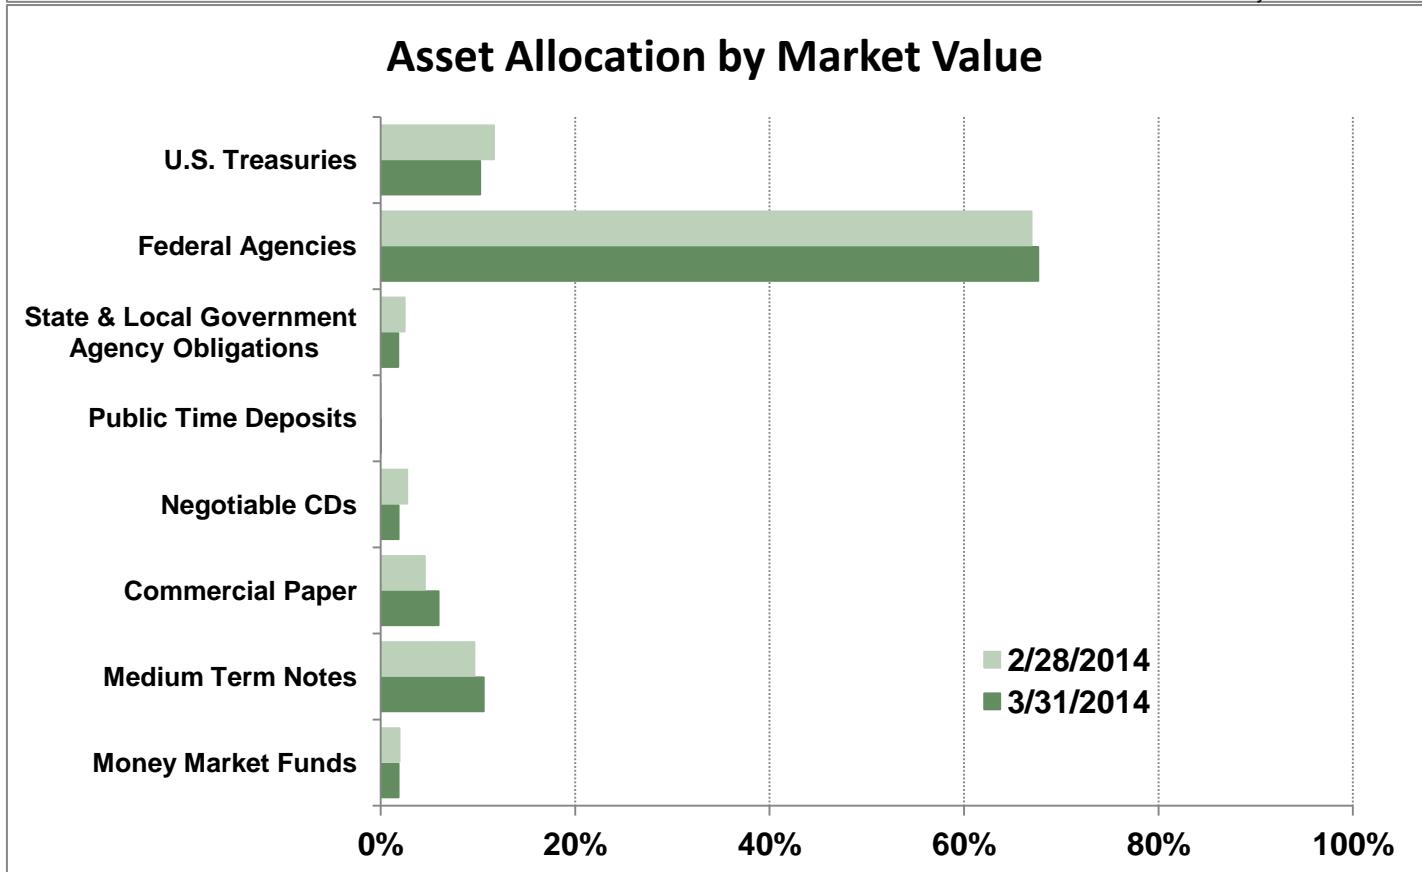

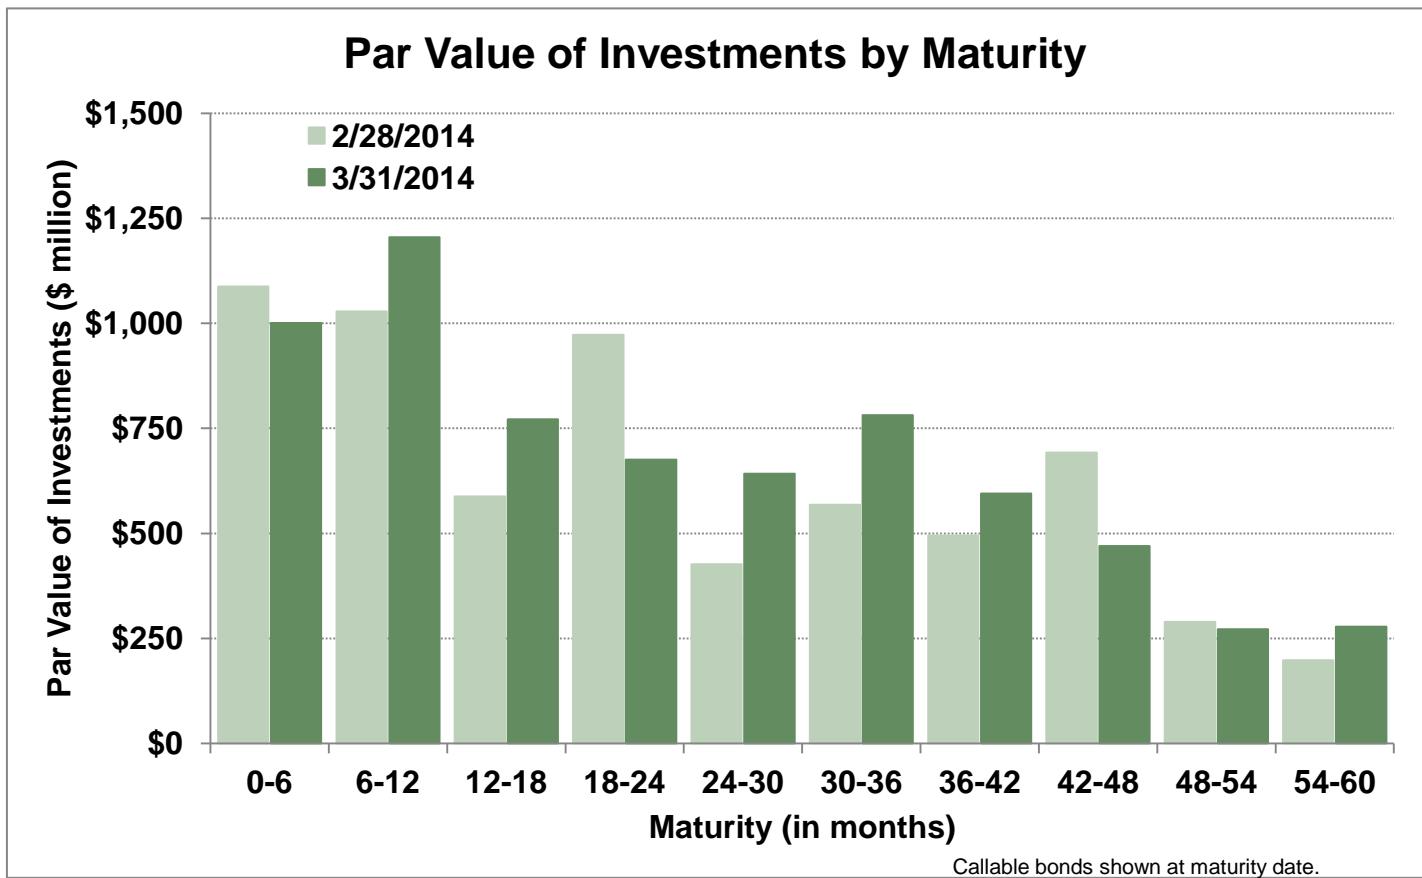

Please note the information in this report does not include cash balances. Due to fluctuations in the market value of the securities held in the Pooled Fund and changes in the City's cash position, the allocation limits may be exceeded on a post-trade compliance basis. In these instances, no compliance violation has occurred, as the policy limits were not exceeded prior to trade execution.
