|--|--------|

Every month, we provide an update on state and federal legislation and, when appropriate, seek recommendations to adopt new positions on active legislation. The attached matrix tracks the latest activity on state bills and the positions previously adopted by the Transportation Authority. We are recommending the following new positions this month: a new support/sponsor position on Assembly Bill (AB) 2374 (Chiu), new support positions on AB 1886 (McCarty), AB 2034 (Salas), AB 2126 (Mullin), AB 2289 (Frazier), Senate Bill (SB) 1066 (Beall), and SB 1128 (Glazer); new oppose positions on AB 1768 (Gallagher), AB 1866 (Wilk), AB 1964 (Bloom), AB 2049 (Melendez), and SB 1259 (Runner); and a new watch position on AB 1550 (Gomez).

**4. Introduction of New Items – INFORMATION**

During this segment of the meeting, Committee members may make comments on items not specifically listed above, or introduce or request items for future consideration.

**5. Public Comment**

# DRAFT MINUTES

## FINANCE COMMITTEE

Tuesday, February 9, 2016

### 1. Roll Call

Chair Mar called the meeting to order at 11:35 a.m.

**Present at Roll Call:** Commissioners Breed, Mar and Yee (3)

**Absent at Roll Call:** Commissioners Campos and Kim (entered during Item 4) (2)

**Chair Mar called Item 4 before the Consent Calendar.**

### Consent Calendar

#### 2. Approve the Minutes of the January 12, 2016 Meeting – ACTION

#### 3. Internal Accounting and Investment Report for the Six Months Ended December 31, 2015 – INFORMATION

There was no public comment.

The Consent Calendar was approved without objection by the following vote:

Ayes: Commissioners Campos, Kim, Mar and Yee (4)

Abstain: Commissioner Breed (1)

### End of Consent Calendar

### 4. State and Federal Legislative Update – ACTION

Mark Watts, State Legislative Advocate for the Transportation Authority, and Amber Crabbe, Assistant Deputy Director for Policy and Programming, presented the item per the legislation matrix.

Commissioner Breed asked why the staff recommendation was to support Assembly Bill First Extraordinary Session (ABX1) 18 when there was still bond debt to be paid, and asked if the state would need to find a new source to pay the bond debt. Mr. Watts responded that this was consistent with previous positions taken. Ms. Crabbe added that the intent was always to pay for the debt service out of the General Fund, similar to how schools paid off their debt service.

Commissioner Breed said that there were concerns with a potential deficit in the state budget and said that it seemed irresponsible to change the intended revenue to pay off this debt service if no other source had been identified as a replacement.

With respect to the staff position on AB 1550 (Gomez), Chair Mar commented that if the bill helped low-income communities of color across the state, supporting it to help those communities was the principled thing to do, even if it didn't necessarily help the city. He said that he would prefer to not take an oppose position but instead a more neutral position, since there was still work being done toward defining communities of concern to include the Bay

Area's low-income communities. Mr. Watts responded that the committee could recommend a watch with concern position.

Chair Mar asked for an explanation of the political context for the different budget proposals. Mr. Watts responded that the special legislative session on transportation started last summer and held hearings in the fall. He said Senator Beall was co-chair and was able to move his bill from the transportation committee, which was now pending a hearing at the appropriation special session committee. He said that Senator Beall was drafting amendments to add significant new funding for transit to supplement cap and trade and other programs, which went beyond roadway projects. He added that Senator Beall could technically amend the bill and use it as a tool for swift action. Mr. Watts said that Governor Brown's bill and Assemblymember Frazier's bill were both on longer time-periods, and that staff was waiting to see what Senator Beall's bill would be able to achieve.

During public comment, Bob Planthold urged the committee to change the staff recommendation on two bills, Assembly Bill (AB) 1641 and ABX1 25. He said that staff was recommending a watch position on these bills but he thought the committee should recommend an oppose position instead. He said the bills would make it "open season" for shuttles to operate in transit bus facilities and that small bus companies wouldn't have the power or ability to negotiate with the private shuttle operators. He said the city's pilot program had recently concluded and that there should be lessons learned from San Francisco for these other operators and for the legislature. Mr. Planthold said it would be better to oppose these bills now or else the city would be giving a blank check to the private shuttle operators, and that he was particularly thinking of the smaller operators and implications statewide. He said the California Public Utilities Commission (CPUC) would be licensing the shuttles and that the city had to take into account the neglect seen with CPUC, which was under-responsive to the needs of disabled peoples.

Sue Vaughan urged an oppose position instead of the watch positions for AB 1641 and ABX1 25. She said that the city was now aware that private shuttles blocked access to bus stops for seniors and people with disabilities and slowed down the public service. She said that evidence indicated that the availability of tech shuttles drives up rent and increases displacement in adjacent communities, and that with tech sector growth in Silicon Valley, this problem would only exacerbate in years to come. She noted that there were other bills discussed about generating revenue for public transportation, and that expanding local and regional public transportation accessible to everyone should be pursued. She concluded that these bills gave no leverage to the disabled and low-income communities to advocate for their needs.

Ed Mason commented that the bills as currently written would transfer public space for private use and that unintended consequences would come between the stops, including wide turns, noise, Muni delays and fuel consumption from buses returning empty. He estimated that there were 1.2 million gallons of diesel fuel used by these buses, half of which was wasted due to the return trips. He said that the buses created safety issues for people using the public bus stops, and that there was no legislation that prohibited the buses from operating without a license. Mr. Mason said that last month, the San Francisco International Airport operated shuttles for a whole month without a California license plate and without decals in the Muni stops. He recommended that a regional express system be set up for efficient and publically available use.

Ms. Crabbe stated that the staff recommendation was in response to a policy conversation that was happening elsewhere in the city. She said the legislation allowed the city to make the decision

to allow private shuttles to use these public transit facilities. She said that was why staff felt comfortable with a recommendation to watch the legislation but that it was up to the Board to amend that if desired.

Chair Mar commented that the bills seemed to go against the California motor vehicle code.

Commissioner Campos moved to amend the item to change the positions on AB 1641 and ABX1 25 from watch to oppose, seconded by Commissioner Yee.

The amendment to the item was approved without objection by the following vote:

Ayes: Commissioners Breed, Campos, Kim, Mar and Yee (5)

Commissioner Breed moved to amend the item to change the position on ABX1 18 from support to oppose, seconded by Commissioner Campos.

Ayes: Commissioners Breed, Campos, Kim, Mar and Yee (5)

The amended item was approved without objection by the following vote:

Ayes: Commissioners Breed, Campos, Kim, Mar and Yee (5)

## **5. Update on the California Road Charge Pilot Program – INFORMATION\***

Michelle Beaulieu, Transportation Planner, presented the item per the staff memorandum.

Commissioner Kim asked how the program would impact drivers' incentives to purchase hybrid and electric vehicles if it put the fee on miles traveled rather than on gasoline purchased, and asked if it would discourage purchase of electric vehicles. Ms. Beaulieu responded that the technical advisory committee recommended to incentivize hybrid and electric vehicles at the time of purchase rather than as an on-going subsidy, and said that the biggest incentive was the fact that they would not have to purchase gas at all.

Commissioner Kim stated that it felt like this would penalize people for good behavior. Ms. Beaulieu responded that the gas tax was not intended to be a penalty on those who purchased gas, but was intended as a proxy for a road use fee, and that when it was created it made sense because every vehicle was using gasoline. She added that all vehicles were incurring wear on the roads today, but that electric vehicles were not paying into the system, so this was intended to be a more "fair" user fee.

Commissioner Kim questioned whether the gas tax was in fact a penalty and a fee on the inefficiencies in the market. Tilly Chang, Executive Director, commented that this was a complex topic and noted that many people saw it as a simple fee and a way to pay for our roads in the belief that the gas tax covered all road maintenance, when it actually did not. She said the fee could be thought of as covering three distinct goals, one to pay for maintenance, second to encourage people to travel in ways consistent with an environmental policy focus, and third would to manage congestion. She said that one of the more controversial questions in this area, for example, was whether the state should give electric vehicles access to high-occupancy vehicle lanes, but that this was an important area where a fee could be interpreted in several ways.

Commissioner Kim commented that she was open to the conversation, but remained skeptical.

Commissioner Mar commented that he appreciated the focus on equity in the fee, and estimated that people who could afford electric vehicles and hybrids earned more money than those who were driving gas guzzlers, but noted that it was a complicated topic and that the slide showing

how the gas tax value had decreased was helpful. He said the program made sense for the future of improving streets and roads in California.

There was no public comment.

Additional detail on bills for which we are recommending a new position, as well as for new bills which we recommend watching (see next page), are highlighted in the attached state legislative matrix.

<b>Recommended Positions</b>	<b>Bill # Author</b>	<b>Keywords and Comments</b>
Change from Oppose to Watch	<a href="#">AB 1550</a> <a href="#">Gomez</a> D	Greenhouse gases: investment plan: disadvantaged communities (DACs). Following input from the Finance Committee last month, we recommend changing our position to watch and will work with the State to seek a change to its DAC definition which does not adequately reflect the DACs of San Francisco.
Oppose	<a href="#">AB 1768</a> <a href="#">Gallagher</a> R	Bonds: transportation. Would effectively terminate state bond funding for high speed rail.
Oppose	<a href="#">AB 1866</a> <a href="#">Wilk</a> R	High-speed rail (HSR) bond proceeds: redirection: water projects. Essentially brings the HSR Project to an end by transferring bond funds to other projects.
Support	<a href="#">AB 1886</a> <a href="#">McCarty</a> D	California Environmental Quality Act (CEQA): transit priority projects. This bill expands CEQA exemption to projects where no more than 50% of their area is farther than ½ mile from a high quality transit corridor or major transit stop.
Oppose	<a href="#">AB 1964</a> <a href="#">Bloom</a> D	High-occupancy vehicle (HOV) lanes: vehicle exceptions. This bill extends the privilege of white sticker vehicles to access HOV lanes by 10 years to 2029. White stickers apply to pure electric and natural gas vehicles only. We feel the most effective way to incentivize clean vehicle usage is at the point of purchase. Access to HOV lanes dilutes the effectiveness of these lanes.
Support	<a href="#">AB 2034</a> <a href="#">Salas</a> D	Department of Transportation: environmental review process: federal program. Extends indefinitely the delegation of National Environmental Protection Act oversight to Caltrans.
Oppose	<a href="#">AB 2049</a> <a href="#">Melendez</a> R	Bonds: transportation. Effectively brings the high speed rail program to an end.
Support	<a href="#">AB 2126</a> <a href="#">Mullin</a> D	Public contracts: Construction Manager/General Contractor (CM/GC) contracts. Extends the authority for Caltrans to use CM/GC procurements from 6 to 12 projects on the state highway system.
Support	<a href="#">AB 2289</a> <a href="#">Frazier</a> D	Department of Transportation: capital improvement projects. Adds capital projects to improve highway operation as eligible for use of state highway funds.
Sponsor/ Support	<a href="#">AB 2374</a> <a href="#">Chiu</a> D	Construction Manager/General Contractor (CM/GC) method: regional transportation agencies: ramps. Amends current law that allows local transportation agencies to use CM/GC to specifically permit CM/GC use on "ramps". This would apply to Phase 2 of the Yerba Buena Island Ramps project.
Support	<a href="#">SB 1066</a> <a href="#">Beall</a> D	Transportation funds: fund estimates. Adds new federal transportation funds to revenues that must be included in the fund estimate for the State Transportation Improvement Program.
Support	<a href="#">SB 1128</a> <a href="#">Glazer</a> D	Commute benefit policies. Extends the commute benefits ordinance authority for the Metropolitan Transportation Commission and the Bay Area Air Quality Management District indefinitely.
Oppose	<a href="#">SB 1259</a> <a href="#">Runner</a> R	Vehicles: toll payment: veterans. Addresses vehicles operated by a veteran with a special decal to the exemption of requirement to pay tolls. Recommending an oppose position because of possibility of fraud (seen in other jurisdictions) and associated decrease in toll revenue.

Staff is recommending a new support/sponsor position on Assembly Bill (AB) 2374 (Chiu), new support positions on AB 1886 (McCarty), AB 2034 (Salas), AB 2126 (Mullin), AB 2289 (Frazier), Senate Bill (SB) 1066 (Beall), and SB 1128 (Glazer); new oppose positions on AB 1768 (Gallagher), AB 1866 (Wilk), AB 1964 (Bloom), AB 2049 (Melendez), and SB 1259 (Runner); and changing an oppose position to a watch position on AB 1550 (Gomez).

Bill #	Author	Description	Status	Position	Comments
<a href="#">AB 6</a> Introduced: 12/1/2014 <a href="#">pdf</a> <a href="#">html</a>	<a href="#">Wilk R</a> (Dist 38)	Bonds: transportation: school facilities. Would provide that no further bonds shall be sold for high-speed rail purposes pursuant to the Safe, Reliable High-Speed Passenger Train Bond Act for the 21st Century, except as specifically provided with respect to an existing appropriation for high-speed rail purposes for early improvement projects in the Phase 1 blended system. The bill, subject to the above exception, would require redirection of the unspent proceeds received from outstanding bonds issued and sold for other high-speed rail purposes prior to the effective date of these provisions, upon appropriation, for use in retiring the debt incurred from the issuance and sale of those outstanding bonds. These provisions would become effective only upon approval by the voters at the next statewide election.	Assembly Dead	New - Recommend Delete from Matrix	Prohibits sale of bonds to support High-Speed Rail program. Directs unspent bond funds to retire debt from Prop 1A and would authorize use of bond proceeds for K-12 building purposes.  The SFCTA board previously held an oppose position to this bill.
<a href="#">AB 23</a> Introduced: 12/1/2014 <a href="#">pdf</a> <a href="#">html</a>	<a href="#">Patterson R</a> (Dist 23)	California Global Warming Solutions Act of 2006: market-based compliance mechanisms: exemption. The California Global Warming Solutions Act of 2006 authorizes the State Air Resources Board to include the use of market-based compliance mechanisms. Current state board regulations require specified entities to comply with a market-based compliance mechanism beginning January 1, 2013, and require additional specified entities to comply with that market-based compliance mechanism beginning January 1, 2015. This bill would instead exempt those categories of persons or entities that did not have a compliance obligation, as defined, under a market-based compliance mechanism beginning January 1, 2013, from being subject to that market-based compliance mechanism through December 31, 2020.	Assembly Dead	New - Recommend Delete from Matrix	This bill would postpone the effective date of the imposition of Cap and Trade emission regulations on fuel from 2015 to 2020 scheduled for the transportation fuels system.  The author is concerned that the public will be subject to a spike in fuel prices. However, the effect of the deferral will be to reduce Cap and Trade auction revenues.  The SFCTA board previously held an oppose position to this bill.

<b>Bill #</b>	<b>Author</b>	<b>Description</b>	<b>Status</b>	<b>Position</b>	<b>Comments</b>
<u><a href="#">AB 318</a></u>	Chau D (Dist 49)	Lost money and goods: bicycles: restoration to owner. Would, until December 31, 2020, provide that if that lost property is found on a vehicle of public conveyance or on public transit property, that it instead be turned in to the public transit agency, and would provide 90 days for the owner to return and claim the property, as specified. The bill, until December 31, 2020, also would require the public transit agency to cause notice of the property to be published under specified circumstances.	Senate 2 year	Watch	This bill establishes a pilot program, until 2021, under which a public transit agency may donate to charity a portion of lost or unclaimed bicycles after 45 days. LA Metro is sponsoring this bill because holding bicycles for 90 days is impartial and costly.
<u><a href="#">AB 516</a></u>	Mullin D (Dist 22)	Vehicles: temporary license plates. Would require the Department of Motor Vehicles (DMV) to develop an operational system, no later than January 1, 2018, that allows a dealer or lessor-retailer to electronically report the sale of a vehicle and provide a temporary license plate, as specified. The bill would, commencing January 1, 2017, authorize the department to assess specified administrative fees on processing agencies to support the administration of this system. This bill contains other related provisions and other existing laws.	Senate Third Reading	Support	This bill requires development of a statewide temporary license plate (TLLP) system to ensure new and used purchased vehicles are identifiable to law enforcement and toll operators during the period between the point of sale and when permanent license plates are received by the purchaser.
<u><a href="#">AB 620</a></u>	Hernández, Roger D (Dist 48)	High-occupancy toll lanes: exemptions from tolls. Would require Los Angeles County Metropolitan Transportation Authority (LACMTA) to take additional steps, beyond the previous implementation of a low-income assistance program, to increase enrollment and participation in the low-income assistance program, as specified, through advertising and work with community organizations and social service agencies. The bill would also require LACMTA and the Department of Transportation to report to the Legislature by December 31, 2018, on efforts to improve the HOT lane program, including efforts to increase participation in the low-income assistance program. This bill contains other existing laws.	Senate Transportation and Housing	Watch	MTIC has adopted a support position on this bill. Expands LACMTA authority relative to HOT Lanes in their jurisdiction, requiring the agency to provide assistance to transit users and commuters of law and moderate income. Amended to allow LACMTA flexibility in providing low income assistance.

<b>Bill #</b>	<b>Author</b>	<b>Description</b>	<b>Status</b>	<b>Position</b>	<b>Comments</b>
<a href="#"><u>AB 779</u></a> Amended: 8/19/2015 <a href="#">pdf</a> <a href="#">html</a>	<a href="#"><u>Garcia, Cristina D</u></a> (Dist 58)	Transportation: congestion management program. Would revise the definition of "infill opportunity zone" to not require that it be within a specified distance of a major transit stop or high-quality transit corridor. The bill would revise the requirements for a congestion management program by removing traffic level of service (LOS) standards established for a system of highways and roadways as a required element and instead requiring measures of effectiveness for a system of highways and roadways.	Senate Appropriations	Support Work with Author	Latest amendment eliminates LOS as an element of a congestion management plan.
<a href="#"><u>AB 828</u></a> Amended: 7/14/2015 <a href="#">pdf</a> <a href="#">html</a>	<a href="#"><u>Loy, D</u></a> (Dist 28)	Vehicles: transportation services. Would require the Public Utilities Commission to conduct an investigation to consider whether existing statutes and regulations relating to transportation services serve the public interest, encourage innovation, and create a fair and competitive transportation market between companies that provide regulated transportation services. The bill would require the commission to complete the investigation and report its conclusions and recommendations to the Legislature on or before January 1, 2017. This bill contains other related provisions and other existing laws.	Senate 2 year	Watch	Amended to exclude TNC vehicles from "commercial vehicle" definition under certain conditions. MTC has adopted a support position on this bill.
<a href="#"><u>AB 869</u></a> Amended: 6/18/2015 <a href="#">pdf</a> <a href="#">html</a>	<a href="#"><u>Cooper, D</u></a> (Dist 9)	Public transportation agencies: fare evasion and prohibited conduct. Current law authorizes a public transportation agency to adopt and enforce an ordinance to impose and enforce civil administrative penalties for fare evasion or other passenger misconduct, other than by minors, on or in a transit facility or vehicle in lieu of the criminal penalties otherwise applicable, with specified administrative procedures for the imposition and enforcement of the administrative penalties, including an initial review and opportunity for a subsequent administrative hearing. This bill would provide that a person who fails to pay the administrative penalty when due or successfully complete the administrative process to dismiss the notice of fare evasion or passenger conduct violation may be subject to those criminal penalties.	Senate 2 year	Watch	Provides additional flexibility to transit agencies that seek to use the administrative adjudication process (transit court).

<u><a href="#">AB 945</a></u> Amended: 5/20/2015 <a href="#">pdf</a> <a href="#">html</a>	Ting D (Dist 10)	Sales and use taxes: exemption: low-emission vehicles. Would, on and after January 1, 2016, until January 1, 2021, provide a partial exemption from sales and use taxes with respect to the sale of specified low-emission vehicles, as provided. This bill contains other related provisions and other existing laws.	Assembly Dead	New - Recommend Delete from Matrix	The bill is intended to encourage out-of-state electric vehicle buyers to come to the factory and visit the state as part of their experience.
<u><a href="#">AB 1030</a></u> Amended: 7/7/2015 <a href="#">pdf</a> <a href="#">html</a>	Ridley-Thomas D (Dist 54)	California Global Warming Solutions Act of 2006: Greenhouse Gas Reduction Fund. Current law requires money in the Greenhouse Gas Reduction Fund to be used to facilitate the reduction of greenhouse gas emissions and, where applicable and to the extent feasible, to foster job creation by promoting in-state greenhouse gas emissions reduction projects carried out by California workers and businesses. This bill would require priority be given to projects involving hiring that support the targeted training and hiring of workers from disadvantaged communities for career-track jobs.	Senate 2 year	Watch	Amendments apply the exemption only on state, not local, sales taxes. The Bay Area Air Quality Management District has adopted a support position.
<u><a href="#">AB 1176</a></u> Amended: 8/18/2015 <a href="#">pdf</a> <a href="#">html</a>	Perea D (Dist 31)	Vehicular air pollution. Would establish the Advanced Low-Carbon Diesel Fuels Access Program, to be administered by the State Energy Resources Conservation and Development Commission, in consultation with the State Air Resources Board, for the purpose of reducing the greenhouse gas emissions of diesel motor vehicles by providing capital assistance for projects that expand advanced low-carbon diesel fueling infrastructure in communities that are disproportionately impacted by environmental hazards and additionally where the greatest air quality impacts can be identified. This bill contains other related provisions.	Senate Appropriations	Watch	Creates the Advanced Low-Carbon Diesel Fuels Access Program, administered by the Energy Commission to fund advanced low-carbon diesel fueling infrastructure projects in disadvantaged communities. MTIC opposes this and other bills to dedicate cap and trade funds to disadvantaged communities on the basis that the methodology to determine "disadvantaged communities" is flawed.

Would enact the Building Homes and Jobs Act. The bill would make legislative findings and declarations relating to the need for establishing permanent, ongoing sources of funding dedicated to affordable housing development. This bill contains other related provisions and other existing laws.	Assembly Dead	New - Recommend Delete from Matrix	This bill, which is similar to SB 391 (DeSaulnier) which we supported last year would impose a fee of \$75 on real property transactions. The bill is supported by the City and County of San Francisco, as a means to fulfill affordable housing needs in existing, developed communities.
<a href="#"><u>AB 1360</u></a> Amended: 7/2/2015 <a href="#">pdf</a> <a href="#">html</a>	<a href="#"><u>Ting</u></a> D (Dist 19)	Charter-party carriers of passengers: individual fare exemption. Would exempt from specified provisions relating to the Passenger Charter-Party Carriers' Act a service operated by a transportation network company or a charter-party carrier of passengers that rearranges a ride among multiple passengers who share the ride in whole or in part, provided that the vehicle seats no more than 7 passengers, not including the driver, is operated by a participating driver, as defined, is not used to provide public transit services or carry passengers over a fixed route, is not used to provide pupil transportation services or public paratransit services, and the fare for each passenger is less than the fare that would be charged to a passenger traveling alone.	Senate 2 year	Watch	The SFCTA board previously held a support position on this bill. Transportation Network Companies (TNCs) have recently started services to allow riders to be picked up at similar locations and share a driver and carpool at reduced fares. This bill would permit a TNC to operate a rideshare program and charge individual fares, provided that the individual fare is less than for the same ride it would be for a single passenger riding alone.
<a href="#"><u>AB 1364</u></a> Introduced: 2/27/2015 <a href="#">pdf</a> <a href="#">html</a>	<a href="#"><u>Linder</u></a> R (Dist 60)	California Transportation Commission (CTC). Current law vests the CTC with specified powers, duties, and functions relative to transportation matters. Current law requires the commission to retain independent authority to perform the duties and functions prescribed to it under any provision of law. This bill would exclude the CTC from the Transportation Agency and establish it as an entity in the state government. The bill would also make conforming changes.	Senate Transportation and Housing	Watch	MTC has adopted a support position on this bill. Removes CTC from jurisdiction under Transportation Agency and re-establishes its autonomy. This bill is similar to ABX1 19 (Linder), SB 1320 (Runner) and SBX1 12 (Runner).

Current law requires the Department of Finance, in consultation with the state board and any other relevant state agency, to develop, as specified, a 3-year investment plan for the money's deposited in the Greenhouse Gas Reduction Fund (GGRF). This bill would require the investment plan to allocate a minimum of 25% of the available money's in the fund to projects located within disadvantaged communities and a separate and additional 25% to projects that benefit low-income households.	Assembly Natural Resources	New – Recommend Change from Oppose to Watch	Increases requirement from 10% to 25% of GGRF to benefit disadvantaged communities (DAC); also adds new requirement that 25% also must benefit low-income households.
					We previously opposed this legislation because the state's definition of DAC does not adequately reflect the disadvantaged communities of San Francisco. We continue to work with the state to try and amend the DAC definition.

The bill would require the public agency carrying out the project to take certain actions.	Assembly Natural Resources	Watch	Would exempt minor road repair projects from CEQA if carried out within existing right-of-way.

The bill would require the PUC, with respect to those newly registered buses, limousines, or modified limousines, to ensure that the vehicles meet all statutory and regulatory requirements for safe operation. The bill, upon the PUC becoming aware of a bus, limousine, or modified limousine of a charter-party carrier of passengers or a passenger stage corporation that has not been reported to the commission by the carrier or corporation, would require the PUC to immediately take steps to require the carrier or corporation to update its reporting of vehicles to the PUC and to request the Department of the California Highway Patrol (CHP) to conduct a safety inspection of the vehicle. The bill would prohibit use of such a bus, limousine, or modified limousine to transport passengers in the absence of securing a satisfactory rating from the CHP812, and would authorize a law enforcement agency to impound a bus, limousine, or modified limousine operated in violation of this provision.</p>	Assembly Utilities and Commerce	Support	<p>The bill seeks to ensure that buses are inspected under safe criteria by requiring DMV to notify the PUC when a bus company first registers the vehicle. Assembly Transportation	New – Recommend Watch	The Contra Costa Transportation Authority (CCTA) is working with a local business park to implement a pilot program that would rely on a driverless shuttle service to provide internal circulation. This bill would increase that percentage to 50%.	Assembly Print	New - Recommend Support	The bill relaxes the CEQA exemption for Transit Priority projects within 1/2 mile of a transit stop by expanding the requirement that the subject parcel may have 50% of its property at a distance greater than 1/2 mile, rather than 25% of its property.

This bill would extend the operation of the provisions allowing specified vehicles to use HOV lanes until January 1, 2029, or until the date federal authorization expires, or until the Secretary of State receives a specified notice, whichever occurs first.	Assembly Print	New - Recommend Oppose	This bill extends the privilege of white sticker vehicles to access HOV lanes by 10 years to 2029. Current law requires the department, no later than January 1, 2016, to submit a report to the Legislature that includes specified elements. This bill would require the department to instead submit that report to the Legislature commencing January 1, 2021, and every 5 years thereafter. The bill would also delete the January 1, 2017, repeal date and thereby extend these provisions indefinitely. Assembly Print	New - Recommend Watch	Expands the use by transit agencies of cap and trade funds for bus or rail service in the face of declared fiscal emergency; the agency board must state that the funds are for use in the calendar year requested, make a finding that the reduction of transit service would increase GHG reductions due to mode shift, and state that the board would reduce or eliminate service if the funding were not provided.

<a href="#"><u>AB 2355</u></a> D Introduced: 2/18/2016 <a href="#">pdf</a> <a href="#">html</a>	<a href="#"><u>Dababneh</u></a> D (Dist 45)	Intercity rail services: mitigation. Would require the Department of Transportation to develop a program for the reasonable mitigation of noise and vibration levels in residential neighborhoods along railroad lines where the department contracts for state-funded intercity rail passenger service. The bill would require the department to determine what constitutes a reasonable level of mitigation. The bill would provide that funding for the mitigation program shall be made available from funds appropriated by the Legislature for this purpose.	Assembly Print	New - Recommend Watch	Requires Caltrans to mitigate noise along intercity rail passenger lines.
<a href="#"><u>AB 2374</u></a> D Introduced: 2/18/2016 <a href="#">pdf</a> <a href="#">html</a>	<a href="#"><u>Chu</u></a> D (Dist 17)	Construction Manager/General Contractor (CM/GC) method: regional transportation agencies: ramps. Current law authorizes regional transportation agencies to use the CM/GC project delivery method, as specified, to design and construct certain expressways that are not on the state highway system if: (1) the expressways are developed in accordance with an expenditure plan approved by voters, (2) there is an evaluation of the traditional design-build method of construction and of the CM/GC method, and (3) the board of the regional transportation agency adopts the method in a public meeting. This bill would authorize regional transportation agencies also to use this authority on ramps that are not on the state highway system, as specified.	Assembly Print	New - Recommend Sponsor/ Support	Amends current law that allows local transportation agencies to use CM/GC to specifically permit CM/GC use on "ramps". This would apply to the Yerba Buena Island phase II, which the SFCTA is leading on behalf of the Treasure Island Development Authority.
<a href="#"><u>AB 2411</u></a> D Introduced: 2/19/2016 <a href="#">pdf</a> <a href="#">html</a>	<a href="#"><u>Frazier</u></a> D (Dist 11)	Transportation revenues. Current law requires certain miscellaneous revenues deposited in the State Highway Account that are not restricted as to expenditure by Article XIX of the California Constitution to be transferred to the Transportation Debt Service Fund in the State Transportation Fund, as specified, and requires the Controller to transfer from the fund to the General Fund an amount of those revenues necessary to offset the current year debt service made from the General Fund on general obligation transportation bonds issued pursuant to Proposition 116 of 1990. This bill would delete the transfer of these miscellaneous revenues to the Transportation Debt Service Fund, thereby eliminating the offsetting transfer to the General Fund for debt service on general obligation transportation bonds issued pursuant to Proposition 116 of 1990.	Assembly Print	New - Recommend Watch	Recaptures approximately \$45 million annually that has been dedicated to the General Fund to instead be directed to highways. The source is miscellaneous revenues generated by Caltrans.

<a href="#"><u>AB 2452</u></a> Introduced: 2/19/2016 <a href="#">pdf</a> <a href="#">html</a>	<a href="#"><u>Quirk</u></a> D (Dist 20)	California Environmental Quality Act: judicial remedies: emissions of greenhouse gases. CEQA authorizes a court, in an action or proceeding brought challenging the decision of a public agency on the ground of noncompliance with CEQA, to enter an order to suspend any specific project activity if the court finds that the activity will prejudice the consideration and implementation of particular mitigation measures or alternatives to the project. This bill would, in an action or proceeding under CEQA, prohibit a court from staying or enjoining transportation infrastructure projects, as defined, based solely on the project's potential contribution to the emissions of greenhouse gases.	Assembly Print	New – Recommend Watch	The bill prohibits a court from imposing a stay or from enjoying a transportation project, if the project is included within a Sustainable Communities Strategy (SCS) or Alternate Planning Strategy (APS) for which a metropolitan planning organization (MPO) has included in a certified SCS or APS certified Environmental Impact Report.
<a href="#"><u>AB 2509</u></a> Introduced: 2/19/2016 <a href="#">pdf</a> <a href="#">html</a>	<a href="#"><u>Ting</u></a> D (Dist 19)	Operation of bicycles: speed. Current law requires a person operating a bicycle upon a roadway at a speed less than the normal speed of traffic moving in the same direction at that time to ride as close as practicable to the right-hand curb or edge of the roadway except in specified situations. This bill would require a person operating a bicycle, as described above, to ride as close as is either safe or practicable to the specified curb or roadway edge. The bill would expand the exceptions to riding as close as safe or practicable to the right-hand curb or roadway edge to include, among others, when riding in class I, class II, or class IV bikeways, as specified.	Assembly Print	New – Recommend Watch	Provides bike riders with more flexibility to the requirement that they ride as close to curb or roadway edge when traveling class I, II, or IV bikeways.

Current law authorizes the Department of Transportation and regional transportation agencies, as defined, to enter into comprehensive development lease agreements with public and private entities, or consortia of those entities, for certain transportation projects that may charge certain users of those projects tolls and user fees, subject to various terms and requirements. These arrangements are commonly known as public-private partnerships. Current law prohibits a lease agreement from being entered into under these provisions on or after January 1, 2017. This bill would allow a lease agreement to be entered into under these provisions until January 1, 2030.	Assembly Print	New – Recommend Watch	Extends P3 authority to 2030 from 2017.

Current law requires the Strategic Growth Council (SGC) to develop guidelines and selection criteria for the Affordable Housing and Sustainable Communities (AHSC) Program. This bill would require the SGC to revise the guidelines and selection criteria with respect to density requirements, as specified, and to include specified factors, including energy efficiency, in its greenhouse gas quantification methodology.	Assembly Print	New - Recommend Watch	Directs the SGC to amend its cap and trade allocation guidelines related to density requirements for affordable housing. Bill leaves intact existing density requirements, but for rural innovation program areas directs a loosening of the density to permit the projects to qualify for AHSC.
<a href="#"><u>AB 2796</u></a> Introduced: 2/19/2016 <a href="#">pdf</a> <a href="#">html</a>	<a href="#"><u>Low D</u></a> (Dist 28)	Active Transportation Program. Current law creates the Active Transportation Program in the Department of Transportation for the purpose of encouraging increased use of active modes of transportation. Current law requires the California Transportation Commission to award 50% and 10% of available funds to projects statewide and to projects in small urban and rural regions, respectively, with the remaining 40% of available funds to be awarded to projects by metropolitan planning organizations, with the funds available for distribution by each metropolitan planning organization based on its relative population. This bill would require a minimum of 5% of available funds in each of the 3 distribution categories to be awarded for planning and community engagement for active transportation in disadvantaged communities (DACs).	Assembly Print	New - Recommend Watch	Dedicates 5% of current funding for distributing Active Transportation Program allocation for award to DACs for planning and community engagement. This bill will likely be amended to increase the minimum percentage awarded to non-infrastructure projects from 10 to 15%, and will include a new minimum award requirement of 5% of funds for planning projects.

Current law, in the case of specified violations relating to rules of the road and driving under the influence, doubles the fine in the case of misdemeanors, and increases the fine, as specified, in the case of infractions, if the violation is committed by the driver of a vehicle within a highway construction or maintenance area during any time when traffic is regulated or restricted by the Department of Transportation or local authorities pursuant to existing law or is committed within a designated Safety Enhancement-Double Fine Zone. This bill would also require that an additional fine of \$35 be imposed if the violation occurred when passing a school building or school grounds, as specified.	Assembly 2 year	Support	Increases fines for traffic violations near schools. Similar bill passed last year, but was vetoed by Governor. SFMTA has also adopted a support position on this bill.
<a href="#"><u>SB 773</u></a> Amended: 6/23/2015 <a href="#">pdf</a> <a href="#">html</a>	<a href="#"><u>Allen</u></a>	Vehicles: registration fraud: study. <u><a href="#">SB 812</a></u>	Hill D (Dist 13)	<p>Charter-party carriers of passengers and passenger stage corporations.</p> <p>This bill would require the Department of the California Highway Patrol (CHP), by regulation, to develop and adopt bus terminal inspection fees applicable to charter-party carriers of passengers and passenger stage corporations that operate one or more tour buses, to replace existing fees, in an amount sufficient to offset the costs to administer the inspection program for these companies, as specified. The bill would require the fees to be collected by the Public Utilities Commission in the case of charter-party carriers of passengers or as otherwise required by the regulations. The bill would make other conforming changes. This bill would require the CHP, by regulation, to modify its existing tour bus terminal inspection program to ensure that the program is performance-based, with parameters to evaluate and target on-site inspections of tour of buses operated by or for charter-party carriers of passengers and passenger stage corporations. The bill would require the tour bus terminal inspection program to prioritize newly acquired tour buses operated by charter-party carriers of passengers and passenger stage corporations, as well as affected companies that are noncompliant or have a history of noncompliance with safety laws or regulations. The bill would also require no fewer than 25% of the total number of tour bus carrier inspections conducted by the CHP to be unannounced surprise inspections. This bill would require a charter-party carrier of passengers or a passenger stage corporation, prior to operating a newly acquired tour bus, to first schedule an inspection of the tour bus with, and obtain a satisfactory rating for the tour bus from, the department.</p>	Senate Transportation and Housing	Support	<p>This is a major overhaul of the statutes that govern tour bus safety. Would require the Department of Transportation (Caltrans) to participate in a pilot program over a 5-year period under which 2 counties, one in northern California and one in southern California, are selected to operate, maintain, and make improvements to all state highways, including freeways, in the affected county. The bill would require the department, with respect to those counties, for the duration of the pilot program, to convey all of its authority and responsibility over state highways in the county to the county or to a regional transportation agency that has jurisdiction in the county.	Senate Print	New - Recommend Watch	Creates a pilot program for Caltrans to turn over its operation and maintenance of state highways in 2 counties for a period of 5 years.  This bill is similar to ABX1 16.
<a href="#"><u>SB 1208</u></a>	<a href="#"><u>Bates</u></a> R (Dist 36)	California Transportation Commission (CTC).
